FLEETRITE®

FLEETRITE® Synthetic Automatic Transmission Fluid (TES-295 Approved)

International is excited to offer FLEETRITE® Synthetic ATF, a premium synthetic universal powershift and automatic transmission fluid, that's TES-295 approved for use in Allison transmissions. FLEETRITE® Synthetic ATF is approved for Allison's Extended Transmission Coverage Programs.

Our FLEETRITE® Synthetic ATF provides:

- Excellent thermal oxidation stability that resists deposit formation
- High viscosity index synthetic base fluids which provide superior high/low temperature performance
- Excellent shear stability and corrosion and foaming resistance
- Reduced used oil disposal costs
- Extended drain and filter change intervals
- Compatibility with most other automotive transmission fluids and seals
- One fluid for year-round use in all geographic locations

Quart

Gallon

5 Gallon Pail

55 Gallon Drum

FLEETRITE® Synthetic Automatic Transmission Fluid meets or exceeds the following listed or approved OEM Specifications:

- Allison TES-295 (AN-031004)
- Allison C4 (27403598)
- Dexron® - III (G-34744)
- VOITH Transmission
- ZF Transmission
